

Abby Hermes

Abby Hermes is a Georgia-based Environmental Surrealist Artist and Instructor with dynamic periods of engagement in the Arts including: Illustration, Teaching, Fashion, Performance, Comics & Literature, and others.

The overall impact of these career phases merged to create a unique meditative psychedelic style that spans over a variety of mediums which incorporates dreamlike color schemes and elements inspired by nature, the human form, environmentalism, education, and social activism.

Abby also aspires to be as eco-friendly and Nature based as possible, regularly working with handmade art supplies and biodegradable / sustainably sourced / environmentally friendly materials.

Along with their passion for Fine Art, Abby loves to create interactive, fun, and engaging atmospheres in educational environments and taught primarily in KSU's OLLI program (2015-2022) before moving to a more independent structure.

When not in the Studio, Abby enjoys Gardening & Homesteading with their Partner and two dogs and having afternoon tea with their Grandmother.
