

Vintee Patidar

I am an artist living in Cumming, Georgia. I was born and brought up in India and moved to the USA in 2016 for my husband's work. I became a mother of an amazing boy in 2017. I have loved to draw and paint since my childhood and I remember I used to help my classmates in school with their drawing assignments. After moving to Atlanta, I spent a lot of time drawing and learning painting techniques. I feel deeply connected to art. By husband's motivation and support, I chose art as my passion. During covid I took online painting classes to improve my artistic skills. I work in acrylic and oil mediums and love to paint realism. My artworks have been put up at multiple art exhibitions. My goal as an art instructor is to support youngsters in help them recognize creativity and building up to make a better future.
